

Website Committee Meeting Minutes

04/14/09

6:30pm

The website committee met this evening and discussed potential templates that we could use for the new town website. We also discussed a process that we will following as we move forward.

On the 20th Norm will come to the Selectman's meeting to give an up date and to discuss the concept of selling ads. He will also show some templates that we are considering.

At our next meeting, May 19th, 6:30pm, we will have some sample home pages developed as well as a conceptual navigation for the new site.

Following that meeting we will come back to the selectmen to choose a final template. We will then proceed with the development of the new site.

Respectfully submitted,

Norm Gentry
