

Final Minutes
Website Committee
5/19/09

Meeting began at 6:30 pm.

Committee discussed the next steps in the website development. In particular Norm will plan to meet with the BOS in the near future to discuss and potentially finalize plans to fund the ongoing development and support effort.

Committee took a look at a couple of potential web designs. The concept is to deploy a site that is simple to navigate but will also supply all of the information that the residents in town may need.

Norm will ask Scott Temple to come to our next meeting. This will give us the opportunity to discuss our plans with him and talk about a potential timeline as well as cost estimates.

Next meeting June 23 at 6:30p.

Norm Gentry, Chairman, Website Committee
