Coordinator
Date: January 26, 2012
RE: Epsom Hazard Mitigation Plan 2012 Update

A Hazard Mitigation Committee has formed to update the Town's adopted 2009 Hazard Mitigation Plan. You are cordially invited to participate in the process. Its update is required to enable the Town of Epsom to retain eligibility for federal reimbursable recovery and pre-disaster funding. Natural, technological, and human hazards will be reviewed, discussed, and prioritized. Key sites in the community will be reviewed and mapped. We will identify objectives and actions for reducing the impact of these hazards to Epsom's people, buildings, and land.

The Committee will hold its second meeting on **Tuesday, January 31st at 6:00 PM** in the Epsom Town Office Meeting Room at 940 Suncook Valley Highway in Epsom.

All are invited to attend and participate. We expect the draft Hazard Mitigation Plan update to be completed in spring 2012. We would appreciate your input into our new Plan! For more information, please contact me at 736-9002.
