

Epsom Hazard Mitigation Plan Update 2024

From the Critical and Community Facilities Vulnerability Assessment (CCFVA)

HMC Task: Identify 2024 Problem Statements and Mitigation Actions

1. List accurate Problem Statements initially identified in Critical & Comm Facilities Excel doc tables.
2. Try to solve the Problem (vulnerability to 1 or more natural hazards) long-term by writing reasonable, future fundable, or “wish list” Mitigation Actions.

1. List accurate Problem Statements initially identified in Critical & Comm Facilities Excel doc tables.

What is a Problem Statement?

A brief description of a site/building/road’s vulnerability to (natural or other) hazard impacts.

A good Problem Statement contains:

the Problem [WHAT]

the Natural Hazards addressed [HAZARD]

the Specific Location / Road / Site/ Building / Facility in Town [WHERE]

the Description of Impact to Location [IMPACT]

2. Try to solve the Problem (vulnerability to 1 or more natural hazards) long-term by writing reasonable, future fundable, or “wish list” Mitigation Actions.

What is a Mitigation Activity versus a Preparedness, Response or Recovery Activity?

Mitigation is long-term risk reduction like an ordinance/regulation, construction, upgrade of existing, or rehabilitation of facilities.

Action Type	Duration	Definition or Characteristics
Mitigation	Long Term 2024-2029+	Action / project supports sustained risk prevention or reduces long-term risk to people, property, and infrastructure. ↳ Best suited for <i>Town Hazard Mitigation Plan</i> .
Preparedness	Short Term Ongoing	Action assists or supports planning, protective activities, public education, training and exercise. AVOID MOST in HMP ↳ Best suited for <i>Town Emergency Operations Plan</i> . Strikethrough
Response, Recovery, Other Related	Short Term Ongoing	Action supports preventative, response, recovery-related, repeated or deferred maintenance activities. AVOID MOST in HMP ↳ Best suited for <i>Town Emergency Operations Plan</i> . Strikethrough

Recreational & Gathering Sites Table:		
<ul style="list-style-type: none"> • Epsom has many remote wooded sections of Town used for recreation. There is a high risk of fire due to the use of and access to remote sites. FD has a budget to keep access to Class VI roads. Upgrading forest fire truck in 2021 and a UTV to get access to hiker rescue and searchers. Town has a forester, regular logging. FD kept up to date on logging. Slash cleared out, less fire. FD conducts controlled burns. Several areas like Fort Mountain are gated. 		
<ul style="list-style-type: none"> • Emergency response has difficulty locating and evacuating injured or lost people even in the Town Forest. If the person has a cell phone, PD can ping the phone through 911. NH Fish & Game will assist, as will Town Forester. FD do mapping and GPS training every year. PD can access K-9 units and thermal imaging units. The Town does not have Town Forest & other conservation area maps readily available to all emergency response or the public. Maps are needed and should be available to the public and for emergency response. 		
<ul style="list-style-type: none"> • INFO: (map sketch, popular trail system, maybe 200/week, in walking distance of residents. Scout waiver for camping). Cons Comm program working to digitally create a map for people to walk. 		

Epsom Hazard Mitigation Plan Update 2024

From the Critical and Community Facilities Vulnerability Assessment (CCFVA)

HMC Task: Identify 2024 Problem Statements and Mitigation Actions

1. List accurate Problem Statements initially identified in Critical & Comm Facilities Excel doc tables.
2. Try to solve the Problem (vulnerability to 1 or more natural hazards) long-term by writing reasonable, future fundable, or “wish list” Mitigation Actions.

We need at least 1 Mitigation Action per Natural Hazard		For Which Hazard?
REVIEW & FINALIZE Community Facilities Problem Statement for accuracy.	DEVELOP 1 or More 2024 Mitigation Actions?	Natural Hazard
AllTrails.com has some trails uploaded from Town Forest

Future Development Table:		
<ul style="list-style-type: none"> • Town services and the School system could not accommodate development of the large lot legacy properties at current Town service levels. Significant upgrades to services, buildings, infrastructure, equipment and staff would need to occur. Some of the lots could be conserved. Bear Paw Regional Greenway recently approached 8 landowners for conservation land, asked town to purchase. Economic development is an important theme in the community right now. The 3 Economic Revitalization Zone (ERZ) ordinance was passed, have an Economic Development Committee, signs are being printed for installation. Purchased 20-22 Bearpaw conservation land added to Town Forest. No purchase of additional land is proposed, too expensive for budget. Cons Comm does not get 100% of the LUTC, a smaller %.
